fig_048_iclr	p.69	fig_048_iclr
fig_048_icml	p.70	fig_048_icml
fig_048_icra	p.71	fig_048_icra
fig_048_ijcai	p.72	fig_048_ijcai
fig_048_iros	p.73	fig_048_iros
fig_048_naac1	p.74	fig_048_naac1
fig_048_nips	p.75	fig_048_nips
fig_048_rss	p.76	fig_048_rss
fig_048_siggraphasia	p.77	fig_048_siggraphasia
fig_048_uai	p.78	fig_048_uai
fig_048_wacv	p.79	fig_048_wacv
fig_049	p.80	U.S. Recipients of Major STEM Awards
fig_050	p.81	Citizenship of U.S.-Affiliated Nobel Laureates
fig_051	p.82	Countries of Origin of Immigrant Nobel Laureates
fig_052	p.83	Researchers Contributing to U.S. Company AI Papers
fig_053	p.84	Researchers Contributing to Chinese Company AI Papers
fig_054	p.85	Research Impact by Company (2-Year Mean Citedness)
fig_055	p.86	Research Reach by Company (Citation Counts)
fig_056	p.87	Research Productivity and Impact by Company (h-index)
fig_057	p.88	Reasonably Cited Works by Company (i10-index)
fig_058	p.89	Research Output by Company
fig_059	p.90	Countries Receiving the Most Biotechnology Patents
fig_060	p.91	Countries Receiving the Most Semiconductor Patents
fig_061	p.92	Countries Receiving the Most Computer Technology Patents
fig_062	p.93	Manufacturing Output by Country
fig_063	p.94	Research and Development Spending by Country
fig_064	p.95	R&D Intensity in Critical Technology Sectors
fig_065	p.96	Do International PhD Recipients Plan to Stay in the Unite...
fig_066	p.97	International PhD Recipients Planning to Stay in the Unit...
fig_067	p.98	Stay Rates of International STEM PhD Recipients
